

Activity sheet | Who Am I?

Introduction

NBA players represent a diverse range of backgrounds, ages and skill. By playing this game with friends and family you can use the stats from player profiles to identify the differences and similarities between players. Try and figure out your opponent's mystery player and take a guess when you think you know!

Instructions

- Cut out the player cards and spread them out in front of you.
- Pick a player from the selection provided, but don't tell your opponent.
- The aim of the game is to work out the chosen player in as few questions as possible.
- Your opponent must use the stats to ask questions, e.g. Is your player taller than 6'2?
- They will be able to eliminate the cards which do not match the answer, by turning them over.
- Keep asking questions until the player has been identified, then swap over.
